**Switches DVI, USB 2.0 & Audio between any Two Computers with a DVI port (PC or Mac).**

**Digital Video, USB 2.0 and Audio Switching at Your Fingertips**

[Read Review](#)

Now you can switch easily and reliably between any combination of two DVI and USB 2.0 equipped computers (PC or Mac) - using only one keyboard, monitor and mouse. The 2x1 DVI KVM Switcher saves space - there's no need to work on a desk crowded with double monitors, keyboards and mouse devices. It saves time - there's no need to move from one monitor to another to access different computers. And, it saves money - there's no need to purchase additional monitors, mouse devices, keyboards etc. The Switcher allows you to choose between a Macintosh or PC keyboard/video/mouse combination.

Apple's ADC flat panel displays can be connected when used with the DVI to ADC Conversion Box.

**The 2x1 DVI KVM Switcher is HDCP Pass-Through.**

### **How it works:**

The 2x1 DVI KVM Switcher switches DVI, USB 2.0 and audio between two computers located near each other. Simply plug your display and peripherals directly into the back of the Switcher. Connect the cables to the computers you want to control. Finally, push the select button in the front panel to switch to the computer you want to control.

### **Package Includes:**

- 2x1 DVI KVM Switcher

- One 5V Power Supply
- Two 6ft DVI cables
- Two 6ft USB cables
- Two Audio cables
- User's Manual

### **Features:**

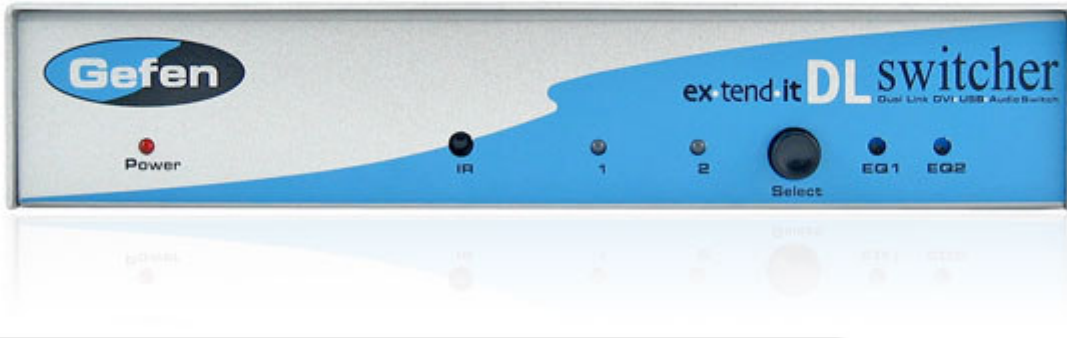

- Saves money on hardware costs
- Saves space on your desktop
- Saves time and increase your productivity
- Maintains highest resolution video
- No loss of quality
- Use either PC or Mac with USB 2.0 keyboard/mouse
- Switches easily between any two DVI computers with USB 2.0 and audio
- Contact closure Remote control option
- Supports ADC flat panel displays when used with the DVI to ADC Conversion Box

### **Specifications:**

- Video Amplifier Bandwidth: 1.65 GHz
- Single Link Range: 1920 x 1200
- Vertical Frequency Range: 50 - 85 Hz
- DVI Input/Output Connector: Type DVI-I (29 pin), Supports ONLY Digital Video Signals
- USB Input Connection: Type "B"
- USB Output Connection: Type "A"
- Power Consumption: 18 Watts (max.)
- Power Supply 5DVC
- Dimensions: 7"W x 2.625"H x 4.125"D
- Shipping Weight: 3 Lbs.

**Quantity:** 1

### Switch Dual Link DVI, USB 2.0 & Audio between Two Computers (PC or Mac)

#### **Gorgeous, super high resolution video supplied with Dual Link DVI Connectors**

The ex•tend•it 2x1 DL DVI Switcher allows you to easily switch between two cross-platform dual link DVI computers using just one dual link DVI display and USB 2.0 keyboard and mouse. Dual link DVI describes the use of all 24 pins of the DVI connector to achieve mega high video resolutions up to 3840x2400. USB 2.0, also known as hi-speed USB, is the next generation of USB capable of sending data significantly quicker than before. Stereo audio is routed through along with the video to the display. Audio, video and control signals are "switched" for each computer upon selection, providing you with an easy and effective method of accessing two computers from one workstation without the hassle of networking.

#### **How it works**

You simply connect your dual link DVI display and USB 2.0 keyboard/mouse to the Switcher's outputs. Then you connect both computers' dual link DVI, USB and audio ports to the Switcher's inputs using the supplied cables. From there, you select the computer you want using the IR remote that comes with the unit or with any contact closure remote control. It allows you to choose between a Macintosh or PC keyboard/video/mouse combination.

#### **Package Includes:**

- DL Switcher
- RMT-2IR
- One 5V Power Supply

- Two 6ft Dual Link DVI cables
- Two 6ft USB Cables
- Two Audio Cables

### **Features:**

- Saves you money on hardware costs
- Saves you space on your desktop
- Increases your productivity by providing instant access to greater amounts of data
- Maintains highest 3840 x 2400 x 60Hz resolution video
- No loss of image quality when switching
- Option of using either PC or Mac keyboard/mouse
- Easily accesses two Dual Link DVI computers
- Comes with its own IR remote control
- Rackmountable

### **Specifications:**

- Video Amplifier Bandwidth: 2x1.65 GHz
- Dual Link Range: 3840 x 2400
- Vertical Frequency Range: 50 - 85 Hz
- DVI Input/Output Connector: Type DVI-I (29 pin), Supports ONLY Digital Video Signals
- USB 2.0 Input Connection: Type "B"
- USB 2.0 Output Connection: Type "A"
- Power Consumption: 15 Watts (max.)
- Power Supply: 5 VDC
- Dimensions: (8.5" in./215.9mm) W x (1.75" in./44.45mm) H x (4.625" in./117.475mm) D
- Rackmountable: 1 Rack Space
- Shipping Weight: 5 Lbs.
