

# Run 2 to 4 PCs from one keyboard, monitor, and mouse.

## SwitchMan®

### SwitchMan

Raritan's SwitchMan is available in 2- and 4-port models, and stores horizontally or vertically to save even more space on your desktop.

**SW2**                    **2 Channel**

**SW4**                    **4 Channel**

### Reclaim Your desktop; Save space, time, and money

SwitchMan is the only KVM switch that combines advanced, professional-grade technology with an easy-to-use design that fits naturally on your desk. Color-coded connectors make installation easy.

### Professional performance, low price

SwitchMan includes the same bullet-proof reliability as Raritan's professional-grade products used in mission-critical server environments worldwide. Raritan's unique emulation technology dedicates an individual processor to each port, so every PC continuously sees its own keyboard and mouse. No matter how you use SwitchMan, you'll enjoy smooth, flawless booting, switching, and operation.

### Easy to connect and operate

Connect your PS/2 and AT PCs to SwitchMan using male-to-male KVM cables, or use Raritan's premium, tangle-proof KVM cables for the highest quality video. Your standard PS/2 keyboard, PS/2 mouse, and VGA monitor plug right into the back. There is no software to load and no dip-switch to set. Standard features such as individual selection buttons with LED lights, hot-key, and AutoScan functionality make operation simple and convenient.

# SwitchMan

SwitchMan includes the same bullet-proof design as Raritan's professional-grade products used in business-critical server environments worldwide. Raritan's unique emulation technology dedicates individual processors to each channel so every PC continuously sees its own keyboard and mouse. No matter how you use SwitchMan, you'll enjoy smooth, flawless booting, switching, and operation.

SwitchMan is inexpensive and easy to connect and operate. Connect your PS/2 and AT PCs to SwitchMan using male-to-male KVM cables, or use Raritan's premium, tangle-proof KVM cables for the highest quality video. Your standard PS/2 keyboard, PS/2 mouse, and VGA monitor plug right into the back. There is no software to load and no dip-switch to set. Just "plug and play!" Standard features like individual selection buttons with LED lights, hot-key, and AutoScan make operation simple and convenient.

Raritan's SwitchMan is available in 2- and 4-channel models. Place the unit horizontally or vertically to save even more space on your desktop. Select PCs by touching individual channel buttons or by using simple hot-key commands through your keyboard.
