Monitor Splitter

A variety of monitor splitters enable you to cover a wide range of training, exhibition and demonstration applications. All models offer high resolution video clarity. They are compact, economical and easy to install. Monitors can either be connected directly to the splitter, or can be located up to 60m away using extensions leads. Our moulded triple coax video cables ensure a high quality image.

The Micro Splitter is a high bandwidth splitter specially designed for TFT monitors and video projectors.
