

Compact direct access up to 16 servers over TCP/IP

The RackAccess 16IP is a keyboard drawer with a 15" LCD monitor, PS/2 mouse, 105 key PS/2 keyboard and an integrated 16 port KVM Switch with remote access over TCP/IP. All housed in one rack unit. The integrated SCOUTutp is an efficient KVM Switch solution for PS/2, USB and SUN servers. Using UTP/STP cable and our server adaptors reduces the need for expensive cable installation and allows easy configuration changes.

- ▶ 19" rackmountable LCD drawer
- ▶ Integrated SCOUTutp 16 port KVM Switch
- ▶ Multiplatform KVM Switch, supports PS/2, USB und SUN
- ▶ Integrated remote access over LAN or WAN (KVM over IP)
- ▶ One rack unit (1U high)

KVM Server Management

RackAccess 16IP

RackAccess 16IP allows direct access at the server rack or over TCP/IP. RackAccess is a rack mountable keyboard, video and mouse (KVM) console with an integrated KVM Switch and remote access over TCP/IP. This troublefree KVM console contains an LCD monitor, a standard keyboard, as well as a touch pad mouse. The KVM drawer occupies only one rack unit (1U), thereby conserving valuable space and energy. The integrated SCOUTutp is an efficient KVM Switch solution for PS/2, USB and SUN servers. Using UTP/STP cable and our server adapters reduce the need for expensive cable installation and allows you to easily change configurations.

If your hardware changes you can change the adapter without needing to rewire the rack. Ideal for changing environments.

Advanced security through 256 bit Secure Sockets Layer (SSL) encryption ensures secure remote connections.

Product Features

- ▶ Integrated SCOUTutp16 port KVM switch
- ▶ Multiplatform, UTP cabling with adapter for PS/2, USB and SUN
- ▶ Hot key controls (switch channels using the pop up menu)
- ▶ Programmable scan mode for automatic sequencing between servers
- ▶ Flash upgradeable
- ▶ Keyboard layout in UK & US English , German, French, Spanish and many others
- ▶ LCD display 15", 17" or 19" LCD Active matrix
- ▶ Resolution up to:
15" Display: 1024 x 768
- ▶ 17" Display: 1280 x 1024
- ▶ 19" Display: 1280 x 1024
- ▶ Max. 16 million colours (Dithering)
- ▶ Viewing angle 160° horizontal/vertical
- ▶ VGA / SVGA / XGA compatible, HD15 pin VGA connector
- ▶ Keyboard PS/2 compatible
- ▶ 88key PS/2 keyboard + 17key numeric keypad
- ▶ Touch pad PS/2 compatible with 2 mouse buttons
- ▶ Remote Access over TCP/IP
- ▶ 256 bit SSL encryption of all transmitted data
- ▶ Standard 19" rack mounting accessories
