

Integrated cables

Control 2 computers from a single, keyboard, video and mouse. The SCOUTmicro is available for PS/2 and USB platforms. The required kvm cables are integrated and 1.8m (6ft) long.

- ▶ High resolution: 2048 x 1536 @ 85Hz
- ▶ The SCOUTmicro PS/2 supports PS/2 computers and console
The SCOUTmicro USB supports USB computers and console
- ▶ Switching from one computer to another with simple hotkeys or the push buttons
- ▶ No external power required

SCOUTmicro

With integrated cables 1.8m (6ft)

Save money on a second monitor, keyboard and mouse in addition to lots of space. The SCOUTmicro controls 2 computers with PS/2 or USB connectors from a single console. Due to the integrated cables the installation is very simple. To switch between the computers occurs through simple hotkeys. The keyboard and mouse emulation ensure problem free boot-up and operation. The console has to have a PS/2 connection for the SCOUTmicro PS/2 and USB connections for the SCOUTmicro USB.

Configuration
